

**BRITESPAN**  
BUILDING SYSTEMS INC

# Public Works Building Solutions

## Salt & Sand, Water Treatment, Waste & Recycling

Britespan offers the widest product line in the fabric building industry, with engineered structures from 24' to 300' wide to any length. We provide building solutions for every application that are efficient to build and have lower ongoing operating costs than traditional buildings.

Britespan's authorized dealers are industry experts and local to our customers, providing project management from concept to completion.

# Corrosion Resistant Buildings with Clearspan Interiors

**Britespan buildings have flexible foundation options and a clearspan interior for optimal operating heights and easy maneuverability of vehicles & equipment.**

Ready for service is what Britespan buildings are all about. Britespan building solutions are quick to install, long lasting, and ready to stand up to demanding work environments. Britespan fabric structures are the perfect choice for members of the public works industry who require a cost-effective building solution that can be erected in a fraction of the time it takes to build a conventional structure. Flexible foundation options and bid specifications meet all building requirements and demands.

The clearspan design of Britespan fabric buildings allows for extra high clearance for heavy equipment and machinery, with no support columns to obstruct

the work area. Safety is important! With our white fabric, light comes in from every direction creating a safe and shadow-free working environment.

Britespan buildings have tested ability to withstand corrosive commodities, and post-fabrication hot dip galvanizing provides lifelong corrosion protection for steel trusses and components, making them the ideal building solution for waste and recycling centres, salt and sand buildings, and water treatment facilities.

## Building Accessories

### Doors

Multiple door styles are available, and can be installed at end or side walls to permit the proper traffic flow.

### Corrosion Resistant

Post-production hot dip galvanizing provides lifelong corrosion protection that stands up to harsh environments.

### Foundations

A variety of engineered foundation options available that can either be permanent, temporary, or entirely portable.

### Engineering

Our buildings are engineered to comply with all North American and International building codes.

### End Walls

End walls can be configured in a wide variety of options including full fabric, partial end walls, steel clad, wood finished and more.

### Graphics & Logos

Buildings can be made uniquely your own with custom decals added to your building, nothing is too big or small!

# Building Series

Britespan has been in the fabric building industry since 1994, offering the widest product line available today. We design, engineer and manufacture each product line in-house.

Our structures are engineered to be portable, temporary or permanent, with rapid installs even in remote areas.

**Atlas Series**  
24' - 108' wide

**Genesis Series**  
80' - 200' wide

**Easy Access Series**  
38' - 67' wide

**Epic Series**  
80' - 120' wide

**Accent Series**  
26' - 32' wide

**Apex Series**  
53' - 100' wide

**Rigid Beam Series**  
Up to 300' wide

Custom eaves, heights and slopes available

## Custom Fabric Colours Available

Contact us for details on our full line of colour options or to request fabric samples.

## Why Britespan?

### HOT DIP GALVANIZING

Post-weld hot dip galvanizing bonds to steel to provide lifelong corrosion resistance from the inside out.

### VENTILATION

Large volumes of interior air space give you superior air quality and ventilation.

### CLEARSPAN INTERIOR

With no interior columns, movement throughout the interior is easy for vehicles and equipment.

### LIGHT

Naturally bright interiors create comfortable environments and help reduce energy costs.

### QUALITY

Constructed from quality North American steel and engineered to comply with the most current building codes.

### RETURN ON INVESTMENT

Our structures provide large, bright, secure spaces with reduced operating and maintenance costs.

Britespan buildings can be added onto existing Cover-All Buildings
