

Case Study

CUSTOMER NAME: Webstone Holsteins
BUILDING SIZE & SERIES: 30' x 240' Atlas Building Series with custom side entrance
BUILDING USE: Calf barn
AUTHORIZED DEALER: Plumeville Construction Inc.

Webstone Holsteins Calf Barn

Lloyd Weber's 30' x 240' building is used to house his calves, their 16 super huts and 8 water bowls, and has a bay for shavings. There is a custom leg side entrance that allows for vehicles and equipment to easily access the inside of the building.

“Britespan has been great to work with. We made some changes along the way and they were more than accommodating.”

Lloyd Weber’s 30’ x 240’ building is used to house his calves, their 16 super huts and 8 water bowls, and has a bay for shavings. There is a custom leg side entrance that allows for vehicles and equipment to easily access the inside of the building.

“We chose this style of building mainly because of the light that it lets in, and the environment that it creates for the calves. Raising healthy calves plays a big part in the quality of what you get in the future, so choosing a building that contributed to producing healthy calves was important to us,” said Lloyd. The calves, huts and shavings are also protective from the elements like rain, snow and wind, also contributing improved health.

“Britespan has been great to work with. We made some changes along the way and they were more than accommodating. I can honestly say that someone was out to see us right away; they provided a quote and stuck to those numbers. We are very happy with our building.”

Rigid Beam Series
Up to 300' wide

Custom eaves, heights and slopes available

Custom Fabric Colours Available

Contact us for details on our full line of colour options or to request fabric samples.

Why Britespan?

HOT DIP GALVANIZING
Post-weld hot dip galvanizing bonds to steel to provide lifelong corrosion resistance from the inside out.

VENTILATION
Large volumes of interior air space give you superior air quality and ventilation.

CLEARSPAN INTERIOR
With no interior columns, movement throughout the interior is easy for vehicles and equipment.

LIGHT
Naturally bright interiors create comfortable environments and help reduce energy costs.

QUALITY
Constructed from quality North American steel and engineered to comply with the most current building codes.

RETURN ON INVESTMENT
Our structures provide large, bright, secure spaces with reduced operating and maintenance costs.

Britespan buildings can be added onto existing Cover-All Buildings
