

# COMMODITY STORAGE

## BUILDING SOLUTIONS

### High volume AG commodity storage to better manage supply and demand.

Storing raw materials or agricultural products in bulk is easy with Britespan's fabric buildings. With plenty of capacity, ventilation, a shadow-free environment and natural light, our structures can help maintain the quality and integrity of your stored commodity over time.

Our buildings can provide enough room to operate large machinery inside, with column-free interiors and widths of up to 210 feet by any length, allowing for efficient bulk storage of palletized and packaged goods and full clearance for a variety of operating equipment.
