

# EQUINE RIDING ARENAS

## BUILDING SOLUTIONS

### Britespan fabric buildings for all season equestrians.

Whether it's a small horse barn or a large dressage or show jumping arena, you can customize a Britespan prefab building to create the perfect environment for horses and riders alike. Plenty of ambient natural light and gentle acoustics eliminate shadows and noise that can spook horses while column-free interiors let you create an open floor plan to meet your needs, and include stalls, tack rooms, viewing areas, and storage for equipment and feed.
